CONSUMPTION CURED!

BUCHAN'S HUNGARIAN BALSAM OF LIFE.

THE GREAT ENGLISH REMEDY For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pictoral and Pulmonary Diseases still stands unrivalled and unsurpassed as the most elegant agreeable, and effectual curative of the formidable complaints, now known to the civilized world

Three years of trial in the United States, during which time it has been distributed from Maine to Florida, has only serve to establish its pre eminent claims in all parts of the country, as the great and ONLY RELIABLE REMEDY

In the worst cases of Pulmonary disease and the most desperate the curative of all the slight forms of Cough, Cold, and inflammation, that can possibly be used.

SPITTING OF BLOOD! This frightful symptom of approaching Consumption is speedily checked and prevented by the use of Buchan's Hungarian Balsam which heals the affected membrane, removes the pulmonary tubercles, and restores those vital organs, lungs tissue and healthy condition

REMEMBER THIS Spitting of Blood always arises from a tendency to Tuberculous disease and if not checked, at the outset will sooner or later determine in death A person who raises blood once, will raise blood again unless a proper curative is immediately resorted to

PAIN IN THE SIDE This distressing symptom of Consumption arises from and inflamation of the Lungs in the Membrane called the Pleura, or from Some affect on of the air passages In either case it is a very dangerous and caution of disease It prevents deep and free breathing and wears away the natural strength of the system The causes of this symptom should be removed at once, and nothing can possibly effect this object so speedily and happily as the Great English Remedy discovered by Dr Buchan which is composed of vegetable in ur ingredients and perfectly harmless in its effects in all cases

LIVER COMPLAINT In cases of Consumption the Liver is always more or less affected, and also the Spleen Pleura and small intestines On dissection of Consumptive patients Tubercles are often found in these organs particularly upon the Liver, which becomes hard, heavy and swelled The effect of Buchan's Hungarian Balsam in diseases of the Liver, especially in the of an obstinate nature to direct and powerful Simple in case of the Liver, unattended by Consumption, it cures by its use

WINTER COUGH The harsh, dry, hacking Winter cough which afflicts old people and invalids in a state of health is happily affected by the Hungarian Balsam

It warms the pores and stimulates the whole breathing apparatus to throw off morbid matter and restores the healthy action of the Liver, Spleen, and other vital glands and the digestive organs, and imparts life to the weak and emaciated system

BRONCHITIS Bronchitis Difficulty of Breathing Harsh Cough, a slimy expectoration with all the symptoms caused by an affection of the air tubes leading from the throat to the lungs, are speedily and perfectly cured by the use of the admirable remedy invented by Dr Buchan

This is a very painful wearing and injurious complaint, and always has a powerful tendency to inflame and soften the Lungs and thereby to produce the worst form of Pulmonary disease warned in time be affected and employ this valuable remedy

TUBERCLES ON THE LUNGS! GENERAL assortment of Paints, Oils, and Hungarian Balsam is the only popular remedy Painters Brushes &c, for sale by which has any power to dislodge, remove, and HALL & YOUNG

Tubercles on the Lungs Incredible as this may seem, it is well ascertained we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect in all cases where there is no natural organic defect In fact, so confident is the American Agent of the power to cure the worst form of this disease he prefers (as he has frequently stated) that he should be used by invalids who have been PRONOUNCED INCURABLE by the most eminent physicians rather than by persons affected with some slighter form of disease—in order that the triumphs might be more apparent He boldly declares that it will cure Tuberculous disease confident its schools attest in the *worst of cases*

EXPECTORATION! Free Expectoration is one of the important object to be attained in all attempts to cure diseases of the Chest and Lungs The Cough which is so distressing is simply the result of a desire to expectorate, and as long as foul matter exists in the air passage it will continue to irritate the membrane and provoke cough Coughing is an effort to throw off the matter and expectoration gives great relief

Nothing is so beneficial to expectorate in the latter stages of consumption is the cause of death

The Hungarian Balsam is a *great Expectorant* It dissolves the morbid and diseased matter in the air passage changes it from a thick glutinous substance to a thin harmless fluid and throws it off with the greatest possible ease and comfort to the patient There is no better medicine in the world if its expectorant quality *alone be considered*

SPASMODIC ASTHMA Simple or Spasmodic Asthma has no better remedy than the Hungarian Balsam This painful and destructive affection which resists almost every thing yields to the all powerful influence of this remedy as readily as any other form of Pulmonary disease

CONSUMPTION! Consumption has been graph cally described as a *Shrinking of one's self* The Hungarian Balsam by its cleansing warming softening and animating power, produces a shrinking but *expansion!*

Before its delightful influence all chills, night sweats costiveness, blueness of the skin, hot flushed skin an uncertian strength, emaciation and decline—disappear like the poisonous dews of night before the glorious morning sun This is a delusion but demonstrable fact, attained by irrefutable proof from all parts of the country

BE WISE TO DAY Delay in any case of Consumptive tendency is emphatically Death under all ordinary treatment The Hungarian Balsam is a great ANTIDOTE as well as CURE If you have any symptoms above described be advised in time

From the "Western Star" a religious periodical published at Jacksonville Illinois

"DOWNS' VEGETABLE BALSAMIC ELIXIR" We are not in the habit of puffing medicines in our columns but having used the above medicine in our family with great success and being persuaded that we can learn concerning it that it is an excellent medicine for Coughs, Colds, Consumptions Whooping Cough, Asthma and diseases of the Chest and Lungs we do not hesitate to give it a cordial notice

Elder Downs an acquaintance of ours, was an invalid for a long time and was thought by his friends to be in the consumption a disease hereditary in his family This remedy was the means of restoring his own health and multitudes have test the salutary effects upon themselves and families

From the Missisquoi (Canada) Post of April 8

"PEVNER HOWNS' VEGETABLE BALSAMIC ELIXIR for all diseases of the Chest and Lungs From the abundant test monials of those who have made use of this preparation we can recommend the public with the utmost confidence as to its efficacy The great danger, also, of neglecting slight pleurisies incident to the chest and lungs should induce every person subject to such complaints to satisfy themselves of this valuable remedy

Augusta, June 16, 1847

The Belfast Journal, and Rail Roads.

The Belfast Journal, according to the spirit of the times in Maine, is advocating the construction of a Rail Road from Portland to Augusta thence to Belfast and finally to Bangor — This is set up as the best route for Bangor as well as Belfast and one reason assigned is that Belfast is the great natural winter depot of Bangor

That is a horse of a strange color! So it was thought, or said, at least that the natural depot of all the Penobscot region was at Belfast and that Bangor was altogether too fast in asking to be erected into a collection district But the business of our custom house, since its establishment is fast doing away with the assumptions of our very modest friends at Belfast

It is quite a mystery to us how it happens that Belfast must be the winter depot for Bangor, and until this is explained and established all the arguments based upon it have no convincing power

But the Journal inserts upon it that in constructing a rail road, or an iron river in Maine, attention must be paid to the large towns now upon navigable waters Not so, if we understand the working of the Rail Road system for our State We have no navigable waters by which we can tap the Great Westward bring in to Maine, the products of that region for consumption and shipment It is proposed, therefore, to put in operation an iron river which shall open to the whirl of business the large and rich section of our State lying remote from navigable waters, and stimulate all the natural resources of that country, and make it desirable for rapid settlement and improvement, and give the whole region a choice of markets and urge on an increase of business, and cause an awakening of all the energies and capabilities of the mind and muscle and land there When this is accomplished, the large towns may find it for their interest to extend their navigation to this iron river, but it is unreasonable for them, out of mere pride, and without the hope of greatly stimulating enterprise or calling into activity much reserved power, among themselves, to insist upon having rail roads connecting them for the rapid and pleasant transit of passengers without regard to the great business and real prosperity of the State

We feel assured there is no love to Bangor in the efforts made by the Belfast Journal and and in other quarters, in calling attention away from the great rail road trunk from Lewiston to Waterville and thence to Bangor

Our city wishes for something better than merely an easy and rapid conveyance to and from Boston In investing their capital in a Rail Road they desire that the road should pay the stockholders, and they also desire that it shall contribute to the general prosperity of the city and of the State, and particularly of this section of it It is believed that all these advantages can be secured much better by a road from this city to Waterville than by any other route

Such a road will open a great channel through the State, the back bone of a plan of roads which will branch from it to suit the wants of every section of the State This is what Bangor wants This is what the State needs — This we must have

Melancholy Accident.

We learn that on Monday last Mr Benj Cochran of Dover in Piscataquis County was killed by a bull He had recently purchased a fine blooded Bull for the improvement of the breed of cattle in that vicinity and left his house at nine o clock in the morning, in about two hours afterwards one of his neighbors in passing found Mr Cochran prostrate in the barn yard, insensible He soon ceased to breathe. The Bull gored his bowels in a shocking manner

Mr Cochran was a man of great enterprise and was highly esteemed as one of the most valuable men in the town His sudden death threw a pall over the minds of all

Poverty in Paris.

The authorities of Paris expended $1,100,000, and nearly four thousand more would be wanted before harvest, to enable the poor to get bread cheaper than the market price On the first of May, says a foreign journal, there were 432 410 persons, in a population of 945,731, who were numbered as receiving bread tickets The number of paupers is 1 to 14 inhabitants, and the number of those receiving bread tickets 44 to 100, or 1 to 2 and 2 10th inhabitants

☞ We tender our thanks to Col Maxwell, conductor on the Eastern Rail Road, and to the officers of the Governor, for papers received yesterday, in advance of the mail

☞ There was a copious, down pouring rain yesterday

☞ There are at this time 70 chaired buildings finished in Cincinnati, and six more in progress

From Mexico.

From the gleanings of the Boston Journal out of the news from Mexico, received from New Orleans we collect the following items which are not of a very cheering character

The Mexicans are by no means disposed to cease hostilities but the guerrilla parties appear to be increasing in numbers and daring — And in the mean time, what with the Yellow fever at Vera Cruz and the dysentery in the high lands, our brave soldiers are rapidly melting away The garrisons on the seaboard are greatly reduced, and General Scott is eagerly calling for reinforcements, and is compelled to take from General Taylor a considerable portion of that veteran troops, and thus prevent or postpone his march upon San Luis

Attack on the Train.

We learn that the whole of the immense train, under the escort of Col McIntosh and 800 men, proceeding onward to the headquarters of General Scott, were attacked by a guerrilla party at a point just fifteen miles beyond Santa Fe a village just eight miles from Vera Cruz The moment the attack was made on the head of the train, the dragoons charged on the enemy and dispersed them After the lapse of a very short time, the Mexicans again made their appearance in seeming overwhelming numbers, from 1700 or 1800 strong, and opened a fire on several points at once Here a considerable number of pack mules fell into the hands of the foe, from the extended line which had to be kept up on the march, owing to the narrow defiles through which the train was passing

Col McIntosh, after a rather severe contest, beat off the assailants, and then fortified himself behind his wagons, deeming it imprudent to continue on without a reinforcement, requiring artillery An express reached the city on Monday the 7th instant, in the evening, and on Tuesday morning, Gen Cadwallader marched to his relief, with a section detached from the howitzer battery, 10 guns, attached to the Volunteer regiments, under Lents Blakely and Cochrane's four companies 11th regiment, under Co Ramsey, one company of the 9th and one of the 7th infantry, and company K, of the 3d dragoons. Twenty wagons accompanied

The Mexicans are said to be posted in considerable strength in the vicinity of the National Bridge, (Puente Nacional) close to which the train is entrenched They are determined to dispute the passage with us Gen Cadwallader on his junction with Col McIntosh, will be at the head of about 1500 strong, and he has declared that he shall soon be able to clear the road of those desperadoes, the guerrillas Although the date is not given, there is little doubt of the Mexicans being under the command of Pedro Jarueta, the Spaniard of whose exploits we have already spoken in these columns The exact sum, in specie, conveyed by this train is $3 20,000 There is no authentic intelligence of the loss sustained by either party, in this encounter Dr Harney, brother of the Colonel, it is said, received a musket ball in the leg, which was however, but a flesh wound

The number of troops at Vera Cruz, since the departure of Gen Cadwallader has been reduced to so low a figure as to give rise to some apprehensions for the safety of the city, in case of an attack by anything like the number said to be under Pedro Jarueta There were not more than forty men fit for duty in the Castle of San Juan de Ulloa, when the Massachusetts left

Com Perry and the squadron had sailed from Vera Cruz for Tuspan The Mexicans were determined to stake a troops along the banks of the river, and fire upon the squadron as it goes up — They have two thousand good troops there Commodore Perry has but one thousand troops and marines to oppose to force

Prospect of Peace.

An old priest of great distinction at Alvarado, received on the 8th ult, a letter from his brother in the city of Mexico, to the effect that Herrera's election would take place on the 20th of June and would be supported by the united church party, deciding the issue of peace or war The letter declares that a combination of the war would be the downfall of the church, that it behooves them to unite with the peace party and put an end to the war, that immediately on Herrera's election being decided, propositions for peace will be made to our government, and concluded in a short time afterwards

New Invention.

Yesterday a Committee of the American Institute, escorting Hon Dixon H Lewis proceeded to Harsimus, N J to witness the trial of a new invention for the use of the farmer—a Rotary Plow and Harrow combined, worked by one team The experiment of yesterday, although badly conducted and he made use somewhat out of tune, still showed the idea to be a good one, it may with some improvements be rendered useful—N Y Express

A locomotive upon the Stonington road lately run seven miles in seven minutes There were nine cars attached containing 233 passengers

The Poetry of the Poor.

Robert Nicoll, the author of the touching lines below was widely and favorably known in England as the Editor of the Leeds Times, and a young poet of rare promise In a short autobiography, prefixed to a volume of poems recently published in London, we are informed, that at thirteen, (when a school boy,) he began to scribble for the newspapers, and that at sixteen,

"To further my progress in life, I bound myself apprentice to Mrs J H Robertson, grocer and grocer in Perth When I came to Perth, I bought Jobbett's English Grammar and, by constant study, soon made myself master of it, and then commenced writing as before, and you know the result

"When I first came to Perth, a gentleman lent me his right to the Perth Library, and this I procured many works I could not get before—Milton's prose works, Locke's works, and what I prized more than all, a few of Bentham's with many other works in various departments of literature and science, which I had not had the good fortune to read before

"I was twenty years of age in the month of January last and my apprenticeship expires in September next By that time I hope by close study, to have made myself a good scholar, and I intend, if I can raise the money, to emigrate to the United States of North America

His sympathies were all with the poor, whose privations and trials had made deep impression upon his heart and most of his pieces, as in the following, contains some latent attack upon the abuses to which the 'toiling millions' of England seem so hopelessly subjected

Nicoll died at the age of 23 — Times

WE ARE LOWLY

We are lowly—very lowly—
Misfortune is our crime,
We have been trodden under foot
From all recorded time
A yoke upon our necks is laid,
A burden to endure,
To suffer is our legacy—
The portion of the poor!

We are lowly—very lowly,
And scorned from day to day,
Yet we have something of our own,
Power cannot take away,
By tyrants we are toiled to death—
By cold and hunger killed,
But peace is in our hearts—it speaks
Of duties all fulfilled

We are lowly—very lowly,
Nor house nor land have we,
But here's a heritage for us,
While we have eyes to see
They cannot hide the lovely stars—
Words in creation's book—!
Although they hold their fields and lands
Corrupted by our look!

We are lowly—very lowly,
And yet the fairest flowers
That by the wayside raise their eyes—
Thank God, they still are ours!
Ours is the a reamless mellow voice,
And ours the common dew,
We still can gaze on hill and plain,
And field and meadow too!

We are lowly—very lowly,
But when the cheerful spring
Comes to th with flowers upon her feet,
To hear the thrustle sing,
Although we dare not seek the shade
Where haunt the forest deer,
The waving leaves we still can see,
The hymning birds can hear

We are lowly—very lowly
Our hedge row paths are gone,
Where woodbines laid their fairy hands
The hawthorn's breast upon
Yet slender mercies still are left
And help in doth endure,
And hearts like prayers that upwards rise
From the afflicted poor!

A Dialogue.

Good morning, A, how are you?

A Not very well This spring weather affects me

B The spring weather affects everybody, more or less What about you take a dose or two of Wright's Indian Vegetable Pills?

A I don't believe in them I don't believe one medicine can cure every thing

B Don't believe one medicine can cure every thing, either! in the name you look at it But you believe it is *possible to prepare a medicine in such a way as to be applicable to the human system in all cases?*

A Why, yes I believe in the *possibility of anything*, now a days

B Well, that is all I want you to admit Call in tonight, and I will give you a dose of Wright's Indian Vegetable Pills to try on, and if you don't pronounce the medicine the best you ever used why, you will then be able to estimate my opinion very much as a lunatic

A Thank you, friend B I will try *anything* on your recommendation! [*Exit, scheming*]

Beware of Counterfeits of all kinds! Some are coated with sugar, others are made to resemble in outward appearance the original medicine The safest course is, to purchase from the regular agents only, one or more of whom may be found in every village and town in the State

ADAMS HOUSE,
No. 371 Washington Street,
BOSTON.

L. & W T ADAMS beg leave to inform their friends and the public that they have taken, the above new and splendid Hotel

THE ADAMS HOUSE was erected during past season to supply an obvious demand for increased and superior accommodations in the city It is located on Washington street within a few minutes walk of the great Southern and Western Rail Road Depots and the business sections of the city It is adjacent to the Park and the Common and commands a beautiful view of the Harbor and adjoining towns

The House has been constructed after the approved plan with all the modern improvements for the comfort and convenience of Travelers and the Constructors long experience in Hotels has enabled him to introduce many improvements, which are, as yet peculiar to this establishment It is built of Quincy Granite and contains *one hundred and fifty Rooms* conveniently arranged in suites and single apartments well ventilated and supplied with an abundance of pure soft water

The Furniture was made to order from patterns with special regard as well to comfort and convenience, as luxury and splendor

Our Table will be supplied with all the delicacies of the season and we pledge our selves that no rarities of the season shall be found wanting

We have devoted unusual attention to the selection of Servants, and our Guests may rely upon prompt and polite attendance

Porters will be in readiness at the various boats to take charge of baggage, and provide carriages for our Guests

The Proprietors trust by strict attention to the wants of Guests to merit a share of public patronage, all who may favor them with their company shall be welcome, on their part to make the ADAMS HOUSE second to none in the city

YOUR Petitioners respectfully represent that they are interested in the transportation of freight and supplies for teams to pass across the Moosehead Lake to the Penobscot and Chesuncook Rivers that the business is much more convenient for the middle tier of towns and supplies through to the place of consumption than for another Company who have no lease from that way—that the purpose of getting supplies across the Moosehead Lake to the West branch of Penobscot and across the Mud Pond Portage is very much less than it should be—that a cheap Wagon Road across said Portages would very much lessen the expense of transportation and enhance the interest of all doing business in that vicinity

They therefore ask to be incorporated for that purpose with such powers and restrictions as may be thought proper in such case—and as duty bound would ever pray

DR. RALPH'S PILLS,

OR UNIVERSAL
DOMESTIC VEGETABLE MEDICINE,
IS FOUNDED ON THE

GREAT PRINCIPLE IN NATURE on which an Universal Remedy can be safely and confidently recommended to the World.

The following remarks on the nature of that great principle on which this Medicine is founded and on the manner in which it is applicable to all Diseases, are addressed to the

COMMON SENSE

of every reasonable and thinking person.

Although it is not generally understood yet there is implanted in the human body a wonderful connecting principle, which unites the ORGANS OF DIGESTION with every separate part or organ—and, consequently, also with every disorder that can befall the human family.

To understand this subject fully it is necessary to be acquainted that nature has supplied a large and peculiar nerve for the very purpose of connecting the Organs of Digestion with each separate part of the body. Unlike all other nerves, which begin in the brain and are thence distributed to every other part, this nerve originates near the Digestive Organs, and terminates in the brain. In this course however, it unites with nerves which are sent from the brain to every part of the body, and thus a universal connecting principle is established. It is in consequence of this that no impression by medicine or otherwise can be made upon the stomach or intestinal passage which is not capable of affecting any distant part of the body, while no disorder can originate in any distant part without affecting the organs of digestion. But it is not only that diseases in distant parts of the body have the effect of disturbing the digestive organs, for it happens that whenever these organs are once affected, this disturbed condition sooner or later reacts upon the original disorder and greatly aggravates it. Thus in Gout or Rheumatism, or any kind of cutaneous disorder, it will be found that in proportion as the stomach is disturbed or the bowels constipated so is the pain and fever attending such complaint increased and aggravated. It is therefore a fact which accords with reason as well as every day's experience that a medicine which controls the varying action of the Digestive Organs must prove exceedingly extensive in the range of its utility.

This the majority of disorders arise immediately from a disturbance of the Stomach, the Liver or the Bowels; but let them spring from what per cause they may they cannot continue long without involving one or other of these organs and hence this remedy which operates to strengthen the Stomach promote the secretions of the Liver and regulate the Bowels, is the most rational safe and universal that can be invented. Further these are the very means which nature herself takes in those wonderful and spontaneous cures we often witness, so that, upholding the natural resources of every constitution, we hereby give to nature the full advantage of her powers.

Again with respect to the

STATE OF THE BLOOD,

this is the only way to make it pure. The principle source of impurities of the Blood is a disordered condition of the Organs of Digestion, and if this be not correct, all other purifiers of the blood are useless.

THE PECULIAR SAFETY

of this Medicine is another circumstance which forcibly

COMMENDS IT TO SOCIETY,

there being no fear of taking it improperly in any case whatever. What disorder is there, for instance that can ever be injured by a medicine that strengthens the feeble and dyspeptic Stomach corrects the vitiated humors of the Blood and cleanses and restores the natural action of the Bowels? If therefore, no complaint can continue any length of time, or amount to any danger without disturbing the one or the other of these organs then it follows as the plainest truth, there is no complaint which does not fall within the reach and influence of this medicine; nor any one in which it is not safe and useful in no one degree or other. For the same reason, no person can doubt a moment as to its safety and propriety in his or her complaint. Moreover the pure and simple virtues of certain vegetable remedies being now entirely separated from the useless and injurious parts, these Pills are brought to act with a certainty and safety that was never thought of heretofore. It is next to an impossibility that any person can take them any length of time without acknowledging this truth and as they contain

NO MERCURY,

so any number that may be required may be taken with perfect safety for any length of time.

It is however meant that any single remedy is alone sufficient for the cure of all diseases and this the more important to remark as many persons pretend to have such remedies. On the contrary, it is stated in a plain and candid manner, there are diseases which absolutely NEED the aid of other remedies and some indeed in which they cannot be withheld a single day without the greatest danger.

In accordance with this Dr Ralph is pledged in all his publications, to point out these circumstances, and the remedies required. He has done so even in the wrapper accompanying every box.

He feels it therefore a duty to repeat explicitly that although there is no disease whatever in which these pills have not been taken with great advantage, and in most diseases have performed a perfect cure; alone, yet there are complaints which absolutely need the aid of other means and some in which such other measures cannot be withheld with safety.

FOSTER'S MOUNTAIN COMPOUND!

FOR THE HAIR,
IS AN ARTICLE IN WHICH THE PUBLIC MAY PLACE THE MOST CONFIDENCE

THE MOUNTAIN COMPOUND

is a article different from any thing ever before introduced it combines several important medicinal qualities that no other article of the kind does, and which make it doubly efficacious, whether as a restorative, or for removing DANDRUFF ERUPTIONS, or DISEASES from the skin of the head

Its powerful Tonic and Invigorating qualities give great beauty and richness to the texture of the hair, and ladies and gentlemen in Boston, Portland, Lowell, and other places, have testified to a very great extent, to its admirable adaptation for dressing softening curling and keeping the HAIR MOIST A GREAT LENGTH OF TIME—longer much longer than any thing else can and no sustance is left to soil any fine or however delicate

Every individual who has bought one bottle of this Compound speak well of it, and they several more, and the proprietor feels confident to recommend it from that fact

☞ For testimony see small pamphlets

CAUTION.

NB None genuine unless signed on the wrapper H W Foster in his own handwriting and also the words are lawfully secured according to copyright and printed on the back of the wrapper on the fold—"Entered according to Act of Congress in the year eighteen hundred and forty six, by Horatio W Foster, in the Clerk's office of the District court of Massachusetts" Also unless there are impressions of the bottle blown in the glass of "FOSTER'S MOUNTAIN COMPOUND" it is not genuine

BAILEY'S COMPOUND EXTRACT OF SARSAPARILLA,

Prepared on a highly concentrated form

THE subscriber, after numerous experiments, has adopted a method of preparing a COMPOUND EXTRACT OF SARSAPARILLA, by a new process by which the entire active principle of the root is extracted in a concentrated form—This preparation has received highly flattering encomiums from the Medical Faculty by many of whom it has been used with invariable success in the following diseases, viz scald head, salt rheum, mercurial affections and ulcers, rheumatism and cutaneous eruptions generally, also in syphilitic cases and all impurities of the blood and obstructions of the secretions The entire satisfaction given in all cases of trial, having produced a great demand for it, the subscriber is induced to CAUTION the public against imposition The Compound Extract of Sarsaparilla as prepared by him, will in future have his seal on the cork of the bottle, with his signature *Wm Bailey* None other is genuine

WM BAILEY

Brooklyn, June 14th, 1844
To Mr. Bailey, Proprietor of Bailey's Extract of Sarsaparilla

I do hereby certify that during the past year I have been severely afflicted with a disease, which made its first appearance in sores in my mouth, afterwards spreading over my face, hands, arms, shoulders and legs, forming an entire scab I received the attention of Physicians and used a great variety of remedies without receiving any visible benefits My situation already truly distressing became worse and worse Being very poor, and my husband being out of employment, I was under the necessity of applying to the Female Samaritan Society of Brooklyn for assistance, and through their kind aid and advice of a physician, (Dr. Moriaty,) was enabled to obtain a supply of Bailey's Sarsaparilla After using three bottles, I found myself entirely recovered. The sores have disappeared, and I now have the happiness of enjoying good health and feel that I am perfectly cured—That Bailey's Sarsaparilla restored me, I am certain inasmuch as I used no other remedy from the time I commenced taking it I felt that I could not do a better service to the public than thus publicly stating my case and recommending Bailey's Sarsaparilla to all that are in any way afflicted as I was It is now two months since I got well and my health was never better in my life than now

MARY MAKIN,—Baltic street

One of the proprietors of this paper, at the request of Mr Bailey, took some pains to ascertain the truth of the above statement Several individuals acquainted with the case were applied to, among whom the physician who attended the female giving the certificate He unhesitatingly stated that the matters set forth were true The disease he said, was a most violent one the woman being covered from head to foot, almost, with sores That when BALLED the recommended a free use of Bailey's Sarsaparilla which was furnished by the Female Samaritan Society of the city, as set forth, and to be surprised of all who are acquainted with the case, the woman entirely recovered after taking but three bottles Such being the virtue of Sarsaparilla, it become every family to have a supply on hand and on the first appearance of the symptoms of a disease arising from the impurity of the blood, let the trial be made The physician alluded to has recommended the Sarsaparilla in other cases with success, and considers it an invaluable medicine

Any further comments would be superfluous

RUST PROOF IRON,

FOR
ROOFING, WINDOW SHUTTERS, &c

THE subscribers beg to call the attention of all those interested in roofing, to their GALVANIZED TIN PLATES, and to the many advantages which they possess over all metallic and other substances hitherto used for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust having now been tested several years, both in this country and in Europe They are also less subject to expansion and contraction from sudden changes of the atmosphere than common Tin Plate, Iron, Zinc &c, or any other metal now used for roofing, and consequently form a much better and tighter roof, requiring far less frequent repair while the first cost is but a trifle more

The subscribers would also call the attention of all dealers and workers in metals, to the many other purposes to which Iron thus protected, can be applied In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere And they would especially call the attention of those interested in TELEGRAPHIC LINES, to their Galvanized Wire, which is now almost entirely used in Europe, and which answers every purpose as a conductor of electricity, costing only about one half as much as copper and possessing equal durability with that metal

Having lately erected works in this city for the purpose of galvanizing Nails, Spikes, Bolts, Wire, &c, they will be able to furnish any article which may be desired A supply of Plates (manufactured in Europe,) constantly on hand, from 16 to 32 wire gauge GEO B MOREWOOD & CO

THE

GRAEFENBERG PILLS,

THERE ARE THE MOST CONCLUSIVE REASONS why that class of Medicines denominated "PATENT," should be hailed the means of incalculable and enduring blessings to the human family Suppose, for example, that this order of the ancient long and sagacious observation, and great medical learning and experience are brought to bear upon the invention and manufacture of a PILL Why may not this long devotion to the division of medical science be crowned with the success that attends the sacrifice of similar talents and time in other things? There is no reason, and it is the simplest state of the simplest common sense to say that a Pill thus produced will as a perfect an article as can be made by man *Twenty-five years devotion* to any one subject will give a man of ability the mastery over it This labor has been bestowed upon the

Graefenberg Vegetable Pills

and they are presented to the public with claims unparalleled in the whole history of medical science

It will be seen, in tracing the history of all great inventions, that they were not made or discovered until the arrival of what may be termed THE DENEES OF TIME The mariner's compass, for instance, was not invented until in the "fullness of time" it was needed The *loadstone* always lay at man's feet, but he never knew what a wonderful and inspiring guide was treasured in its silent bosom, until the Divinely appointed time drew near when distant continents and islands were to be unveiled Behold it now transferred to the bosom of the adventurous sailor, emulating him to launch far away upon unknown Oceans, instead of timidly sailing within sight of familiar land marks!

So with the discovery of the New World, upon whose shores was to arise this Giant Nation to a power, a glory, a mission far beyond the conception of the wildest fancy The Old World had reached its highest attainments, the "fullness of time" drew near for the revelation of the New World, and behold the immortal Columbus, from the forecastle of his drenched and leaky vessel found it! So with the invention of printing, of steam, of the magnetic telegraph Each of these had its own "fullness of time," marked, distinct and Providential

☞ IN MEDICAL SCIENCE THE SAME GREAT PHILOSOPHICAL PRINCIPLE IS EQUALLY MARKED Most beautiful and striking Illustrations and proofs of this which are to be found in the history of the world We can trace them from the Mosaic dispensations down to the present hour, all of them teaching us the lesson and giving us the hope that *GOD STRIVES YET BETTER* for the human multitudes at hand

That this principle is as true of Medical as of Physical science is clearly shown in the

GRAEFENBERG GAZETTE,

which is furnished gratuitously to all who wish it—The

Graefenberg Pills,

are deemed by all who have tested them to be a decided advance upon all other medical combinations and discoveries hitherto known, and they are announced as

THE GREAT REMEDIAL TRIUMPH

The inventor of these Pills rests his theory upon no school nor dogma of ordinary medical teachers Planting himself upon the revelation of the

ALMIGHTY CREATOR,

THAT

"THE BLOOD IS THE LIFE,"

he requires that his disciples and his patients make pure the *life current* that leaps through their veins and arteries, before they can hope for a PERMANENT cure Relief he can give them, and so can a hero, but bright and joyous hope must come from a pure blood

But in most cases thought here comes in! So cures are the medicines which are practiced upon the public by pretenders and so numerous and boastful are the medicines advertised, that the reader may be slow to believe in this Great Remedy A word, therefore, on this point

In the first place, READ THE GRAEFENBERG GAZETTE No matter how sceptical you may have been, that paper will convince you Thousands *have been* convinced in every State and Territory in the Union, among them distinguished statesmen, jurists, clergymen physicians, civil and The hard nomination of their names would fill his page Let the reader send to the agent convenient agency for a copy of the Gazette, which can be had.

GRATIS!!

In the second place try the PILLS. It will cost but the merest trifle and will introduce you to a medicine which your will decide is belonging to the end of your days

A thousand things press upon the minds of the advertisers which they would rejoice to say to the reader but the limits of this advertisement forbid But let any one afflicted with the diseases make trial of the Graefenberg Pills and they will be PERMANENTLY CURED!

In all bilious or chronic disorders these Pills achieve the most wonderful triumph HERE THEY DEFY COMPETITION And as the incept purity of the American constitution is to those diseases, they are aptly styled by some

The Pill of the New World

Their wonderful efficacy in these complaints arises from their power to OPEN THE PORES CLEAN SE AND STRENGTHEN THE STOMACH AND BOWELS MAKE THE URINE FLOW HEALTHILY AND CLEAR AND TO GIVE TONE AND STRENGTH TO THE SYSTEM

It is impossible, with a the limits of an ordinary advertisement, to give the reader the reasons for the most extraordinary success and spread of these Pills But reasons do exist, which have abundantly satisfied the minds of thousands in this country, and among them the accomplished Physicians, Jurists, Clergymen, and private citizens, male and female.

☞ NUMEROUS CERTIFICATES of the wonderful efficacy of these Pills might be presented, but a certificate in these days is scarcely worth the paper on which it is printed A few extracts from the correspondence of the Company, will show, however, be given

FROM INDIANA.

"Your enterprise is the enterprise of the day Its magnitude will astonish the aristocracy It is destined to effect a complete revolution in the medical world!"

FROM A JUSTICE OF THE PEACE IN WESTERN N YORK

"I have sold a number of boxes to the citizens of this place They have given entire satisfaction, and they are destined to become the most popular Pill of the day"

FROM TOLEDO, OHIO

"Having heard so much, and witnessed two or three cases treated in the house directed by your Journal, I have thought it important you should have an agent at this place In my opinion, more good can be done in this climate by your medicines, than by all the old modes

I address you at the instance of a friend who is making a thorough trial of your remedies, and with complete success"

FROM A DISTINGUISHED GENTLEMAN OF BOSTON

Gentlemen,

I cannot refrain from troubling you with a few lines to express my great pleasure in being able to say that I have experienced the greatest relief from the effect of your Pills For many years I have suffered much from constipation, which has disarranged my whole system, and I have not known a day's good health for many years past, and being an old man, I despaired of ever again enjoying life, but a friend recommended me to try your Pills, which I did, although without the confidence, the result, I am happy to inform you, has far exceeded my expectations, the cause of my suffering is nearly removed, and I feel my health and strength daily renewed, and I am satisfied that the merits of your Pills, when tested, must be acknowledged by the whole community, and will become the most popular medicine of the day"

FROM JUDGE ———, OF GEORGIA

Sir,

Since writing to you last upon the subject of my ill health, I have been taking your medicine, and am pleased to say, that they have been of great service to me, and if they continue to give me the relief I have all ready felt, I shall bless the day you sent them I need not allude again to the sufferings I have before told you of, but intend to persevere, and hope to be able, the next time I write, to give you the happy intelligence of a perfect cure I have heard of many instances in my neighborhood wherein they have performed some extraordinary cures"

FROM AN EPISCOPAL BISHOP

Gentlemen—I consider it to be the duty of every Christian to make known to the world any advantages that they may have derived by accident or from any discovery of their own, and with this sentiment strongly impressed on my mind, I feel great gratification in having it in my power to speak in the highest terms of the valuable discovery you have made in the production of your Pills I was induced to try them, from the philosophical manner in which you have reasoned on the subject and I must do myself the pleasure, and you the justice to say, that I had no conception so speedily an effect could be arrived at My complaint has been that of the Liver, from which I despaired of getting better, but since taking your Pills, I find my general health, spirits and appetite so much improved that I hope to find myself able to endure, without bodily suffering, the duties of an arduous Profession In future I will send to your agent for more Pills when needed With great consideration and gratitude, I am, &c

JULES HAUEL'S PREPARATIONS!

TRY THEM, AND JUDGE FOR YOURSELF!

TO THE PUBLIC.

Wonderful! That's Right—A proper Principle adopted

YOU cannot object to giving my articles a trial. If they are not found to be as represented, return them, and your money will be cheerfully refunded—Remember, there is no *quackery*,—no *humbug*,—here A trial will cost you nothing,—so if any one is humbugged, it will be myself With the utmost confidence I recommend to the particular attention of the public the following articles: First—

MY EAU LUSTRAL HAIR RESTORATIVE.

This universally approved and admired article, free from ardent spirits, pungent essential oil, and other destructive materials, cleanses the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers It excites the scalp to a new and vigorous action, cleanses it from scurf and dandruff and its effect in the restoration and growth of the hair is unequalled by any other preparations of the kind Second—

MY EAU DIVINE DE VENUS AND NYMPH SOAP.

Composed of an Eastern Botanical Discovery of Surprising Efficacy, for rendering the SKIN SOFT AND FAIR, as well as imparting a Delicate Roseate Hue to the Complexion

No lady's toilet is complete without this article Its effect on the skin is strikingly beautiful it removes all sallowness, clears the complexion, and leaves a delicate roseate hue that cannot be surpassed Third—

MY SHAVING CREAM.

"It is a luxury to shave with Jules Hauel's Premium Cream"

This Cream is acknowledged by all who have used it to be superior to any in use. It produces a fine and rich lather It does not *smart* or *irritate* the skin, on the contrary it is very soft and highly emollient No person will use any other, after once using this admired preparation Fourth—

MY DEPILATORY POWDER.

This Powder has never failed to produce the desired effect Its composition is infallible, and warranted to remove superfluous hair Many ladies have used it, who were afflicted with hair on the sides of the face, arms, &c, giving a masculine turn to the features, and will testify of its happy effect Fifth—

MY CELEBRATED VEGETABLE LIQUID HAIR-DYE.

A Chemical Result, to enable persons to dye their hair in instantaneously without the least inconvenience

"My white hair has been changed like magic by using one box only of Jules Hauel's celebrated "Vegetable Liquid Hair Dye"

For changing red or gray hair, whiskers, eye brows, &c, to a brown, black, or chestnut color The slight est evil consequences need not be feared from its use—it is altogether harmless This composition is the only one sanctioned by the science of chemistry, to dye, in an indelible manner, the various gradations of color, without danger or inconvenience and has justified the liberal patronage and unlimited confidence of the public

☞ *Beware of Counterfeits!* Ask for "Jules Hauel's Vegetable Liquid Hair Dye," if you want the genuine article Sixth—

MY UNRIVALLED ROSE TOOTH PASTE

Is universally sought after for the pearly whiteness it gives to the Teeth, without the slightest injury—Seventh—

MY CELEBRATED PERSIAN OR CHINESE POWDER.

Patronized by the Fashionable World of the United States and enjoy the immediate patronage of the Ladies

This powder is unequalled for the nursery, for restoring beautifying and preserving the complexion rendering the skin delicately white smooth and soft preventing cutaneous eruptions, chapping, and obviates the copious perspiration Travellers and residents in warm climates will highly appreciate this grateful appendage to the toilet

NINE HUNDRED DOLLARS REWARD

Will be paid to the person who will prove that Jules Hauel's *Vegetable Liquid Hair Dye* is not the best,—the very best yet known in this country or in Europe—This valuable discovery will enable a person to dye instantaneously the hair in a few minutes, without the least inconvenience This preparation is warranted not to stain out, nor to injure the health of the hair and return all its softness and brilliancy

From a celebrated Chemist of the City of Philadelphia

DEAR SIR—It is with a high degree of pleasure that I furnish you with my testimony in favor of your *Eau Lustral Hair Restorative* I have been surprised by its wonderful and beneficial results and have no hesitation in saying, that I believe it to be the most valuable and extraordinary discovery ever known for restoring and reproducing a fine and luxuriant head of hair In regard to the *Nymph Soap, Hair Dye, Rose Tooth Paste, Depilatory Powder* and *Shaving Cream*, I must say that they are scientifically compounded, and that it is a real luxury to use them Yours, &c

JOHN FARR, Chemist
President of the Manufacturers and Mechanics' Bank, Philadelphia

MR JULES HAUEL "

Try it! Try it! It is furnished Gratis!

The most positive and convincing proof of the superiority of an article depends on the favor and satisfaction it has received from those who have used it—With respect to my *Shaving Cream*, it is always used with satisfaction, and it has everywhere met with universal approbation

Those persons who have not made use of this delightful preparation may, by calling at the Store of the Proprietor No 126 CHESTNUT Street receive without charge, a small box for trial, and am determined to let the trial judge for themselves

From CONSTANT GUILLOU, Esq Attorney at Law, and Notary Public, Philadelphia

"From personal acquaintance with Jules Hauel—as a perfumer and fashionable Perfumer and Chemist—I was prepared to appreciate the numerous testimonials in favor of his different fashionable preparations On trial of them in my own family, and some of them personally, I have more than realized these favorable anticipations,—they do, what they profess to be scientifically prepared and compounded I have at all times since my experience been convinced of the great merit of the *Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap*, and, in fact, all the popular preparations of Mr Hauel

It is with the greatest pleasure that I can recommend the above articles to all of my numerous friends, and the public They are, in their way, invaluable

CONSTANT GUILLOU"

From DANIEL J DESMOND, Esq, Attorney at Law, Consul General of Pontifical States, Vice Consul of Austria, Sardinia, Portugal and Tuscany

To MR JULES HAUEL

Sir—Though I have not the pleasure of a personal acquaintance with you, yet a sense of duty to yourself and the public generally, sometimes me to bear my unsolicited testimony in favor of your different fashionable preparations. On trial of them in my own family, and some of them personally, I do positively declare that they are what they profess to be, skillfully prepared and compounded I am convinced of the great worth or merit of the Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap and Rose Tooth Paste—I am fully satisfied of their intrinsic worth, and do heartily recommend them to all for the use and purposes they are intended Nothing can excel the beauty and nature imparted to the hair by the use of the Eau Lustral Hair Restorative It invigorates the hair and promotes its growth The Shaving Cream is unsurpassed and decidedly excellent, being a fine and highly emollient composition—it does not smart or irritate the skin, while the Nymph Soap operates beautifully upon the pores of the skin, and cleanses it from all impurities The Rose Tooth Paste imparts to the teeth a pearly whiteness, and is well calculated to preserve the teeth and gums from decay They are in their way invaluable

"I have seen some of my friends who have used your Vegetable Liquid Hair Dye, its effect is really a wonder It dyes the Hair in an indelible manner in a few minutes, and the color of the hair is really beautiful, and none will detect the artificial colors, as it is so natural Yours &c DANIEL J DESMOND

CONSUMPTION CURED!

BUCHAN'S
HUNGARIAN BALSAM
OF LIFE.

THE
GREAT ENGLISH REMEDY
For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pulmonary and Pulmonary diseases, still stands unrivalled and unsurpassed as the most elegant, agreeable, and effectual curative of these formidable complaints, now known to the civilized world

Three years of trial in the United States during which time it has been distributed from Maine to Florida, has only served to establish its pre eminence and merit in all parts of the country as a great and

ONLY RELIABLE REMEDY

in the worst cases of Pulmonary disease and the best and most agreeable curative of all the slight forms of colds cough and inflammation, that can possibly be used

SPITTING OF BLOOD! This frightful symptom of consumption, Consumption is speedily checked and prevented by the use of Buchan's Hungarian Balsam which heals the affected membrane restores the new right tubercles, and restores those vital organs, the lungs to a sound and healthy condition

REMEMBER THIS! Spitting of Blood always arises from a tendency to Pulmonary disease and if not checked, at the outset will sooner or later determine in death A person who raises blood once will raise blood again, unless a proper curative is immediately employed"

PAIN IN THE SIDE! This distressing symptom of Consumption arises from inflammation of the Lungs or the Membrane called the Pleura, or from Bronchial affections of the air passages In either case it is a very dangerous indication of disease It prevents full and free breathing and wears away the nervous strength of the system The cause of this symptom should be removed at once, and nothing can possibly effect this object so speedily and happily as the Great English Remedy, discovered by Dr Buchan which is entirely vegetable in its ingredients, and perfectly harmless in all a system

LIVER COMPLAINT In cases of Consumption the Liver is always more or less affected, and also the Spleen, Pleura, and small intestines On discovering Consumptive patients Tubercles are often found in all these organs, particularly upon the Liver which also becomes fatty oily and swelled The effect of the Hungarian Balsam in diseases of the Liver especially will be seen to be an uncommon direct and powerful remedy *Simple disease of the Liver, complicated by Consumption is specifically cured by it.*

WINTER COUGH The hard dry racking winter cough which *afflicts old people* and finds in a total state of health is hurtfully affected by the *Hungarian Balsam*

It warms moistens and stimulates the whole breathing apparatus removes all mucous impurities and offers from the parts and nature thus aided, improves the secretive power of the Liver Spleen and other large glands and the digestive organs and imparts new life to the wasted and emaciated system

BRONCHITIS Bronchitis Difficulty of Breathing, Harsh Cough, a shiny expectoration, with all other symptoms caused by an affection of the air tubes leading to the throat to the lungs are directly and specifically cured by the use of the admirable remedy invented by *Dr Buchan*

This is a very painful, wearing and injurious complaint, and always has a powerful tendency to inflame and soften the lungs and to induce the worst form of Pulmonary disease Begin at the first time, we affected and employ this valuable remedy

TUBERCLES ON THE LUNGS The Hungarian Balsam is the only remedy which has any power to dissolve remove and cure Tubercles on the Lungs Incredible as this is generally esteemed we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect in all cases where there is no natural organic defect In fact, so confident is the American Agent of this power to cure the worst form of this disease that he prefers (as he has frequently stated) that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent He boldly declares that it will cure Tuberculous disease and confidently solicits a trial in the *worst cases*

EXPECTORATION! Free Expectoration is the most important object to be attained in all att
